THE DOCTORS GO OUT TO-DAY.

To-day Tur EVENING WORLD COIPS of physicians begin again their annual Summer visits among the poor, and from this time until the Summer begins to wance they will minister, free of all charge, to the little suffering ones. The field they cover is a great one. Experience of past Summers has shown it to be even greater than was at first believed.

But they are faithful workers, and the over !" good they accomplish can never be fully told. The fund from which the necessary expenses of the work are drawn will remain open until the enterprise again draws to a close, as the need of resources is not less constant and pressing than the my ten to win or lose !" need of the doctors.
